📍 Rome, Italy @ [roic.alessandro@gmail.com](mailto:roic.alessandro@gmail.com)  
in [linkedin.com/in/alessandroroic](https://www.linkedin.com/in/alessandroroic) 🐙 [github.com/AlessandroRoic](https://github.com/AlessandroRoic)

Front End Developer with 3 years of experience building modular and responsive website designs. Capable of managing projects independently, able to plan and systematically organize my work. Focused on details, keeping up with deadlines, and pre-established budgets. Always eager to improve my skills with hands-on experience and interested in learning new technologies.  
Authorized to work for any Canadian employer for six months without an LMIA.

---

## Work Experience

### Front End Developer / Accenture

📅 February 2021 to Present 📍 Rome, Italy

- Led a team of 4 software developers for a project, using knowledge of accessibility standards (WCAG 2) to achieve an outstanding score of 93/100 on Google Lighthouse.
- Developed and maintained 10+ repositories for a multinational banking website, using **React 17** to build modular and reactive micro front ends.
- Collaborated with a scrum team of 20 engineers and designers, employing excellent verbal and written communication skills to build positive working relationships.
- Self-managed, implemented, and deployed a data management app with **Angular 13** for a bank's internal tool, providing operators with a simple way to view client data.
- Tested components and pages using **Karma & Jasmine** for an online banking website, resulting in 100% code coverage.

### Full Stack Developer / Jpanik

📅 October 2019 to February 2021 📍 Rome, Italy

- Implemented pages and services for a hospital management web app, handling heavy workloads during the pandemic by prioritizing and organizing tasks, resulting in zero service disruption.
- Integrated an interactive graph using the library **Chart.js**, providing a helpful visual reference to healthcare professionals.
- Developed **RESTful APIs** using **Spring Boot** to create scalable and performant services.
- Upgraded **AngularJS** components to **Angular 8**, improving performance and readability, and cutting development time by 25%.

---

## Education & Certifications
